# 15 Years of Misery, 32 Days of Sewo for 5 more years of Misery!

## No Way, Vote Them Out!

*Skerrit paid Destra \$135,000 for less than two hours of sewo. The average Dominican makes about \$25,000 per year. Can you calculate how many years it would take the average Dominican to make \$135,000?*

The Dominican population has been subjected to 15 years of misery under the Dominica Labour Party, public servants can no longer afford to face the banks for mortgages, most public officers end up with negative salaries after the various salary deductions to meet their monthly commitments.

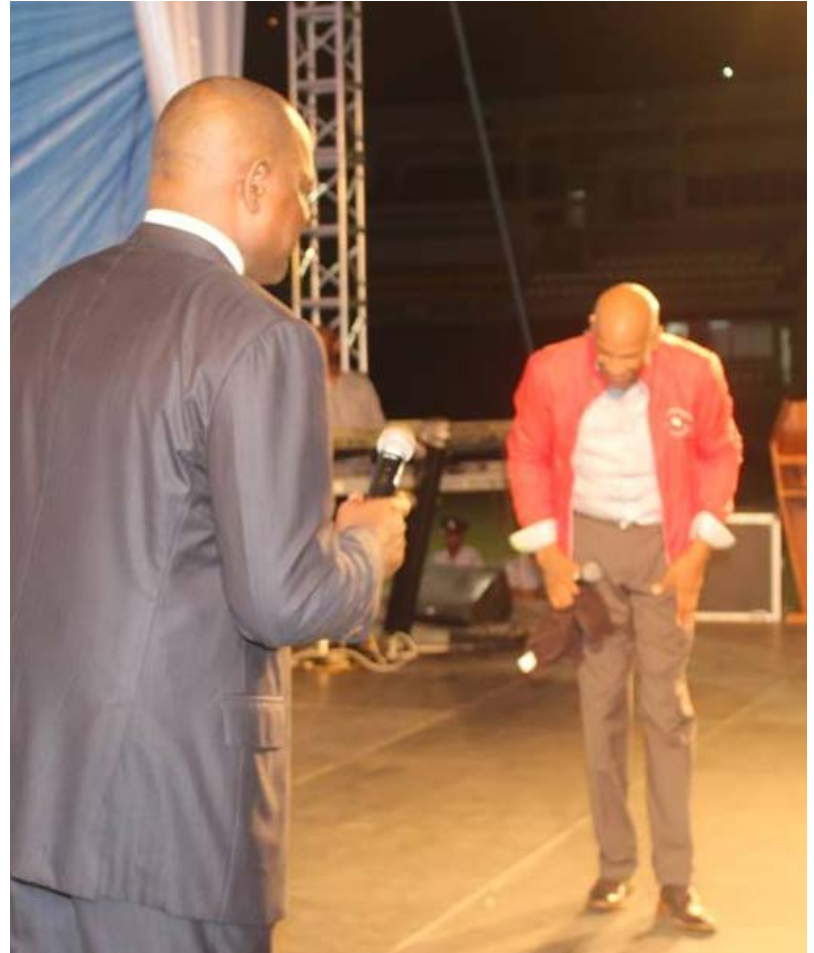

Farmers have been turned destitute, a proud people who once

walked into the banks and motor vehicle dealerships and purchased their 4 wheel drive vehicles cash and built their homes without a mortgage, are now begging for bread at the Red Clinic.

Construction workers sit idly by as they look at foreigners repair roads, build the state palace, state college and apartment buildings with loan money that they themselves will have to pay back.

The unemployed youth languish by the roadside day after day with nothing to do while a small bunch of Labour Party hacks receive salaries in excess of \$14,000.00 a month for doing nothing.

Dominican businesses have been forced to shut down operations and make way for foreigners, any business person who dares to express their freedom of speech is subjected to calls for boycott of

*Gospel artiste paid \$250, 000 to perform at DLP rally*

their enterprise by Labour Party operatives including the President of the State who is responsible for the closure of Brizee Mart.

Dominica has suffered 15 years of misery under Labour and they expect to intoxicate the people with alcohol and sewo for thirty two days, a plethora of highly paid foreign artists, only to be subjected to another five more years of misery.

What can a bunch of incompetent politicians such as Reginald Austrie, Ambrose George, Collin McIntyre, Roosevelt Skerrit, Peter St Jean and the rest of that lazy bunch, have to offer Dominica for the next five years that they could not have done in the last fifteen years? Nothing!

# YOU ARE LYING!

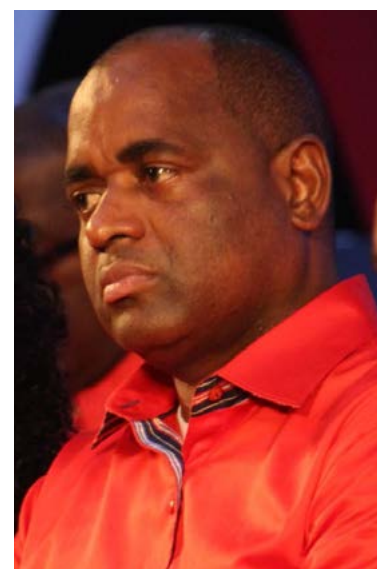

*Ambassador Crispin Gregoire, Dominica's former Ambassador to the United Nations*

Two of Dominica's former ambassadors have accused Roosevelt Skerrit of lying to the Dominican people about his diplomatic pursuits with Cuba, Venezuela and Morocco, Crispin Gregoire, Dominica's former ambassador to the United Nations and Clarkson Thomas former ambassador to Cuba, made this accusations at

a recently convened panel discussion on the topic; Diplomacy: How it works.

According to Gregoire, Roosevelt Skerrit used deception in seeking favours with the Moroccan government at the expense of the Polisario Front, the legitimate representative of the people of Western Sahara.

On the other hand, Clarkson Thomas stated that both the Venezuelans and Cubans considered Skerrit's abandonment of the People of Western Sahara as a betrayal of the liberation movement and their denial to their quest to self determination and independence.

# UWP Political Leader strongly condemns alleged arson at Melville Hall

Political Leader of the United Workers Party (UWP) Lennox Linton strongly condemns all forms of violence, vandalism and disruption of lives.

Linton's remarks come in light of a suspected arson which destroyed a communication tower servicing the Douglas-Charles Airport.

Speaking at press conference at the Prevost Cinemal on Thursday morning, Linton said the incident is of grave concern to the UWP.

"There are a couple of matters that have surfaced in recent times that is of grave concern to us," he said. "We don't know what exactly has happened, we are hearing opinions from the government side and their suggestions of arson. We would want to await the results of a complete investigation by the authorities before we address this matter in a more com-

prehensive way."

He said the UWP will not stand for any form of violence and vandalism

"We do not stand for violence, we do not stand for the destruction of property, or for the disruption of lives in any way shape or form," he stated. "And to the extent that this development could have been an act of vandalism, or any other such thing, we totally and absolutely condemn it without reservation."

At a meeting in Riviere Cyrique on Wednesday evening, Prime Minister Roosevelt Skerrit told his supporters that he knows who set the fire and encouraged his supporters to admit that they all knew who set the fire.

It is expected that the police authorities will seek assistance from Roosevelt Skerrit with their investigations.

# Skerrit is on his knees begging

After subjecting opposition supporters to abuse, insults and disrespect, even going as far as saying that people who support UWP Team Dominica are dishonest. Roosevelt Skerrit has the unmitigated gall to beg UWP supporters to vote for him and his corrupt Labour Party.

Skerrit who robbed the government treasury of hundreds of thousands of dollars in land transfer deals, the bin bobol, the fertilizer bobol, the famous villas

and scores of other nefarious acts is finally seeing political defeat at the polls so he is asking for forgiveness, he will treat opposition supporters better next time and he blames his other colleagues for not being fair with all sectors of the population.

As the Labour Party election theme of "SHOCK AND AWE" evaporates into thin air and the fake supporters begin to abandon ship towards Team Dominica, Skerrit is wetting his pants

and having night mares of what life will be for him under Prime Minister Lennox Linton.

Fear no more, Skerrit, Team Dominica has a lot of work to do to rescue this country, the police will be asked to do their job without interference therefore if you are not guilty of any malfeasance then you need not be afraid. Relax, the people have decided it's time for change, time for you to go, so they voting UWP Team Dominica.

Over the past ten years I, along with my fellow Dominicans at home and abroad, have borne witness to a pollution of our isle of beauty and splendor. Our nation's most precious resource – our human potential – has been stymied by toxic policies that succeed in fostering dependence on the government and thwarting the economic growth that would allow our people to create, innovate and thrive in their country of birth.

I am a husband, father of two children and a proud patriot of Dominica, firmly committed to truth, righteousness, justice and equal opportunity in all our affairs. My mission is to "sound the call" rallying all Dominicans to join their hands, hearts and minds in this historic effort to make Dominica the best place to live; the best place to work; and the best place to enjoy life in the global community.

# SITTING ON A GOLDMINE AND SCRUNTING IN DOMINICA

Fitz Shillingford is a well known Dominican, and he is struggling while sitting on a goldmine in his country.

Its been more than six years since Mr. Shillingford discovered a multi million dollar concentration of Jasper at his property. Fitz had known that these precious stones existed there for a long time, but was unaware of its value until he learned while overseas how valuable they were.

Diamond is the hardest of stones rating at a 9.9 to 10 ("mould" I think is the system of measurement used.)

Jasper is usually rated at 7 to 7.5. Fitz jasper has been rated at 8 to 8.5 by the Department of geology of Barcelona, who concluded that this grade is of

the highest calibre.

Mr John D Charlton director of Geology and mining at W.S.P. in Canada, rated Fitz's jasper as probably the best in the world.

Mr Shillingford's set back is that these agencies will only deal with him through government. He has a well prepared business plan since 2010. He has written and gotten limited permission from the government who dont seem interested in his project. He has had an audience with the venezuelan ambassador along with Miss Lorraine Bannis. The Venezuelan ambassador was very interested and promised to put him in touch with the appropriate counterpart in Venezuela. He has seen Mr Skerrit once, and he has seen Dominica's ambassador to venezuela 13times, and Mister

Philbert Aaron, Dominica's ambassador to Venezuela, has kicked him about, ducked him, mamagayed him, lied to him, fooled him, disregarded him and to this day this is where Mr Shillingford sits in Limbo.

One high level government official told him " Boy, once there is no immediate benefit for them fellers, you wasting your time".

Mr Shillingford has proof of a ring, earring, chain set made of gold and jasper worth over nine thousand dollars.

He also said that this industry would greatly boost our tourism industry and create many jobs. He has thousands of pounds of Jasper already harvested waiting for someting to CHANGE.

# The Imported Voters are Coming: Some Words of Caution

Contrary to what Gerald Burton, Tony Astaphan and other local legal 'luminaries' say, you would be on the wrong side of Dominica Law because, although your name on the Electors List indicates that you are a registered voter, your failure to satisfy the Law relating to the pre-election residency requirement, you are a registered voter who is not eligible to vote in this election. That places you in violation of Dominica Election Law. In addition, by accepting a ticket to travel and cash to vote as requested, you would be engaging in an exchange of money with an unauthorized agent which also places

you in violation of item #6. This would be the case even if, unlike 2009 when tickets were handed directly to recruited voters, you were given a money order or cheque to go purchase your ticket from an authorized travel agent.

Contrary to what Paul Alexander says, you would then be on the wrong side of US Law because as a Passport holder (or permanent resident or other person enjoying the protection of legal residence in the US as a student, for example) you would be in violation of the warning contained in item #6 of the US Passport which re-

quires that you observe all laws of the country to which you travel.

The two major questions to be asked by all those who have been recruited to vote for the Labour Party in this election, are the following:

1. Is this vote for Labour worth risking of all that I have worked for in America?
2. Why would Michael, Paul, Barbara, Vince, Tony Astaphan, Alick Lawrence, Kondwani Williams, Gerald Burton and Roosevelt Skerrit place me and my family at such risk just so La-

bour can stay in power and they can continue to enjoy the privilege of their high position?

If you answer "yes" to these two questions then you have decided that you are prepared to break the Laws of Dominica and the Laws of the United States and to risk you immigration status for persons who care only about using you for their own ends.

If you answer "yes" to these questions and proceed to Dominica as requested by your 'recruiter' to vote for "Labour", you should be prepared for all the consequences mentioned and indicated.

If you read this and decide that the risk is to great, you should immediately return the ticket and/or cash to the recruiter and communicate your decision, preferably in writing.

If you are already here in Dominica, you should make urgent arrangements to refund the ticket and cash to your recruiter that would cover the costs of your round trip travel.

If you are already here in Dominica and plan to proceed with the vote on December 8th, may Heaven help you.

## POLITICAL APARTHEID

Political apartheid ségrégation politique — is an unwelcome part of Dominica life today. There was a time in the days of the original Labour Party when it was clear that the struggle was all about the slogan “Make the Little man Walk Tall.” Pride and purpose was in that slogan and those who wanted to blight this were very angry yet found that over time money power could not stop truth on the move. That was the extent of the political divide in DA then, but now, “see how we come.”

In my view “de big noise” started in earnest with another slogan of an emerging political party in 1988, the United Workers Party’s —“Fear no more!” It was a call to the ordinary people to remember the days of ordinary people power. The slogan, “Fear no more” became the clarion call to all who labored for some comfort in their lives. However angry losers banded together to plot and devise ways and

means to “get them out at any cost.” The UWP came into office in 1995 and was defeated at the polls in January 2000 by a combination of two former rivals- the Freedom and Labour parties which in the process created an almost impenetrable wall of division running right through the spirit of our nation.

Today political apartheid has become a pestilence. You either “love de PM” or you do not and if you do not then live in the political ghetto. However Skerrit himself has not helped to ease the situation. He has been constantly jerking our soozie-moozies. A string of scandalous allegations which moves with warp speed. A secret MOU with the Chinese government and the booting of the Taiwanese ambassador. Then the Times newspaper headline, ‘Million Dollar Assets Five Thousand Dollar Salary,’ which sent him into paroxysms of nuclear anger.

The bin-bobol scandal which forced him to make a national explanation that it was not really a bobol, which few believed, the Layou River Hotel court case in the BVI where he was cross-examined and mostly answered, “That is a good question”, the introduction into our politics of heavy-tongued dictatorial statements like, “no law including the Constitution can stop me Roosevelt Skerrit.” The fertilizer scandal thing in which the minister wants us to believe that he never knew his half-brother was the supplier, the PM’s “simple \$400,000 house” that needed an overseas super-rior consultant and turned out to be a multi-million dollar mansion, his dual citizenship issue, the blah-blah, and the ro-ro-ro over and over again. So the DLP gang is pulling out all the firepower of bouncers and googlies, money and political influence from their haversack so as to yes, “défwonsé” Team Dominica the new UWP. The scandalous spending for this

election campaign clearly tells the world that Skerrit is desperately trying not to lose because he knows that investigations of his activities will surely follow his fall.

“What is hidden in the closet will be shouted from the housetop.” The condoners will be out-condoned as there is no escape from the law of karma. The story of the villas which has riveted national attention and Skerrit’s many secrets will be revealed for what is certain in all of this is that truth is marching on and even as a whisper today it will drown the loudest noise as it marches picking its own moment when it will emerge into the light. It is therefore our responsibility as a Christian nation to help expose truth which will set this nation free and it all starts with our vote on election day. If you are interested in truth in our politics clearly a vote for the saw is a good way to start.

# Dominica's National Debt hits

# \$1.5 BILLION

**(\$1,500,000,000.00)**

## Every Dominican owes \$22,000.00

While Roosevelt Skerrit boasts about his ability to raise money to promote a weekly Red Clinic and a \$30 million election campaign, he has mortgaged the lives of every single Dominican including the new born baby with a debt of \$22,000.00.

When Skerrit took over as Prime Minister in January 2004, he met a national debt of just about \$500 million but in ten years he has tripled the national debt to \$1.5 billion making Dominica the most indebted nation in the Eastern Caribbean.

Skerrit owes China over \$150 million for the State House, State College, Housing Apartments and other debts he borrowed money for. He owes Venezuela more than \$300 million for fuel from Petro Caribe and he owes the Caribbean Development Bank, World Bank, IMF and other international institutions a significant amount of money.

Sadly, while the above statement refers to Skerrit's debt, Dominicans are the ones left to bare the

burden of this debt which is unsustainable and has the potential of reducing every Dominican citizen to perpetual poverty and indebtedness.

Skerrit is addicted to the spending of money which he has not earned and this is reflected in the way that he went about wasting \$30 million of campaign money in less than four weeks.

While Public Works employees are languishing on the street for eight weeks without pay, police officers, teachers, nurses and civil servants are offered a zero salary increase, Skerrit takes pride in paying foreign artists \$2.5 million for a few hours of entertainment during the election campaign.

He succeeded in dressing Labour Party supporters in red with a concealed mark of the beast 666, fed them with alcohol and loud music then when the job was done, he brought them to worship Donnie McClurkin. But all this was preceded by his knighthood as a grand master of the catholic lodge.

He then tells his disciples that they should not bathe before they go to vote, a clear indication of Skerrit's involvement in the occult. But the blood of Jesus will cover the patriots of the land and victory shall be delivered.

Before December 8th, Skerrit must be made to declare the details of Dominica's national debt and most specifically how much do we owe Venezuela.

Few words have resonated with me as poignantly as those of Dominica's national anthem. As a private citizen, professional journalist, husband, father and son of Dominica, I have heeded the call to "Strive for honour...Do the right, be firm, be fair." On September 1st, 2013, upon being elected Leader of the United Workers Party – Team Dominica, these words took on new meaning, propelling me to undertake bold, visionary, and decisive action to halt the corruption, mismanagement, and abuse of power that has befallen Dominica.
