í í	\$12.50
í í	\$1.80
í í	\$3.40
íí	\$1.40
	 í í

And today's financial tip:

What is a crossed trade?

A crossed trade is a stock market designation for a simultaneous purchase and sale of the same security. This occurs when a broker executes both a buy and a sell for the same security from one client account to another based on a pre-sale agreement between both clients and the same portfolio manager manages both accounts.
