**19.9 Competition Format**

The WICB Regional Women 2016 will be contested by 6 teams which have been seeded and divided into two groups:

Group A

Barbados (1)

Trinidad (3)

Guyana (5)

Group B

Jamaica (2)

Windward Islands (4)

Leeward Islands (6)

During rounds 1 to 3, each team will play each team in its zone once, whilst the teams not playing in each zone will play each other. Points will be allocated for each match (including the across the zone match) in accordance with the system described in clause 19. 10 of these playing conditions. The teams that accumulate the most points from each zone will contest the final. The teams that accumulate the second highest points in each zone will play each other to determine 3 and 4 place. The teams that accumulate the 3rd most points in each zone will play against each other to determine the 5 and 6 place.

## 19.10 Points

The points system is as follows:

Win,.....	3
Tie, no result or abandoned .....	2
Loss .....	0

### 19.10.1 Group Stage

In the event of teams finishing on equal points in their Group, the right to play in the Final & playoff matches will be decided in the following order of priority:

- The team with the more wins in its Group will be placed in the higher position.
- If there are teams with equal points and equal wins in the Group stage then in such case the team with the higher net run rate in the Group stage will be placed in the higher position (refer to clause 19.10.2 below for the calculation of net run rate).
- If two or more teams are still equal, they will be ordered according to the head to head match played between them (points then net run rate in those matches).
- If the above does not resolve the Group ordering, or if all matches within a Group produce no results, then any tied teams will be ordered as per their Group seedings.

### 19.10.2 Final

The top team in each group will contest the final. In the event of a tied Final, the teams shall compete in a Super Over to determine which team is the winner. Refer attached Appendix 7. If weather conditions prevent the Super Over from being completed, or if the match is a no result or abandoned, the teams shall be declared joint winners.

### 19.10.3 Play off

Playoff match 1 will be contested by the second place team in Group A versus the second in Group B. Playoff match 2 will be contested between third place team in Group A versus third place in Group B. In the event of a tie a Super Over will take place. If weather conditions prevent the Super Over from being completed, or if the match is a no result or abandoned, then the winner will be determined by 19.10.1

### 19.10.4 Net Run Rate

A team's net run rate is calculated by deducting from the average runs per over scored by that team throughout the relevant portion of the competition, the average runs per over scored against that team throughout the relevant portion of the competition.

Note: net run rate is not applied to the Super Over.

In the event of a team being all out in less than its full quota of overs, the calculation of the net run rate of both teams shall be based on the full quota of overs to which the batting team would have been entitled and not on the number of overs in which the team was dismissed.

Only those matches where results are achieved will count for the purpose of net run rate calculations. Where a match is abandoned, but a result is achieved under Duckworth/Lewis, for net run rate purposes Team 1 will be accredited with Team 2's Par Score on abandonment off the same number of overs faced by Team 2. Where a match is concluded but with Duckworth/Lewis having been applied at an earlier point in the match, Team 1 will be accredited with 1 run less than the final Target Score for Team 2 off the total number of overs allocated to Team 2 to reach the target.

In circumstances where a match (and the points for such match) is awarded to a team as a result of the other team's refusal to play, either by the match referee in accordance with Law 21.3 (a)(ii) as read with playing condition 21.3 or in accordance with the provisions of the relevant event agreements signed by the participating teams, the net run rate of the defaulting team shall be affected in that the full 20 overs of the defaulting team's innings in such forfeited match shall be taken into account in calculating the average runs per over of the defaulting team over the course of the relevant portion of the competition. For the avoidance of doubt the runs scored and overs bowled in such forfeited match will not be taken into account when calculating the net run rate of the team to whom the match was awarded
